

## Specifications for Geysers Junior:

March, 2010

---

### **General Structure Design and Construction:**

The Geysers Junior is a ground spray element that emits a heavy bodied, aerated mound of water. The feature flow rates can be adjusted to increase or decrease the spray height effect. The Geysers Junior is designed for wet deck applications with no standing water. The Geysers Junior jet pod to be cast into thickened concrete pad with access cover flush with finished floor. The manufacturer shall supply a complete assembly including: Geysers Junior jet pod, non-slip cover plate, structural plastic Geysers Junior nozzle, vandal proof stainless steel hardware, and winterization cover plate. Pumping system and supply piping with flow control valve to be supplied and installed by others. The Geysers Junior is exclusively manufactured by Aquatic Recreation Company, LLC, Toll Free Phone #877-632-0503, Local Phone #952-445-5135, Fax #952-345-6444, Website: [www.arc4waterplay.com](http://www.arc4waterplay.com).

### **Jet Pod:**

The Geysers Junior jet pod is constructed of heavy-duty gas welded PVC material with stainless steel hardware. Structure fittings and connection ports to be gas welded; triple bead fabrication for strength and durability. Geysers Junior pod is designed to be completely encapsulated into thickened concrete slab designed by others.

### **Cover Plate:**

The cover plate to be constructed of a heavy-duty PVC plastic material with a colored, non-slip coating. The cover plate is to be secured to jet pod with tamper resistant stainless steel fasteners.

### **Nozzle:**

Geysers Junior nozzle to be a structural plastic water level dependent nozzle designed to create a heavy bodied, aerated mound of water with a designed spray height of 3 ft.

### **Winterization:**

Ground spray embeds will come complete with winterization cover plate. All water to be evacuated from structure by either blowing out plumbing lines or by gravity draining back to collection drain. Prior to plugging, use of a biodegradable swimming pool anti-freeze is recommended

### **Colors:**

Owner may select colors for the cover plate. Color options are White, Purple, Yellow, Blue, Green, Red, and Orange.

### **Flow Rate Design:**

Feature nominal design flow rate for this project is: \_\_\_\_\_ *GPM*, which will require a \_\_\_\_\_ *INCH* size pipe feed with a flow control valve supplied by others.

### **Warranty:**

Product warranty will be a five year warranty against defects in workmanship and materials. All finishes shall have a five year unconditional warranty against rust and corrosion. Warranties exclude normal wear and tear, abuse, improper installation and maintenance.

### **Packaging:**

The Geysers Junior shall be packaged with all necessary protective wrapping so as to protect during normal shipping and handling. Care must be exercised during handling to avoid damage to product structure and finish.

### **Installation Instructions:**

The Geysers Junior will be provided with complete installation drawings and instructions. Please read all installation instructions prior to installation. Installer may call Aquatic Recreation Company LLC at their toll free number #877-632-0503 during installation if there are questions concerning this product.
